My name is Bruce Chamblee, and I am a small business owner and student at Georgia Tech's Coding Bootcamp for Full Stack Web Development. I am based in Pooler, Georgia and originally from Savannah, Georgia. Most of my days are spent running my multifaceted small business with my two partners and spending time with my family. Recently, I decided to attend coding school to help enhance the digital presence within all of our companies and their industry. However, after learning about all the possibilities within the coding world, I intend to take the skills I acquire to build applications to enhance the workflow and productivity for everyone in my company.

EXPERIENCE

JULY 2005 – PRESENT

MANAGING PARTNER, THE DORSEY GROUP

At The Dorsey Group, I am the Managing Partner for a multi-faceted small business that supports the transportation industry. The Dorsey Group has seven different divisions which I oversee. My responsibilities include managing financial benchmarks, workflow design, administering the IT, and overseeing the sales department. When I initially started with the company, my position was working as a line technician in our retread manufacturing facility. Over the years, I have held many positions within the company until I bought into it in 2011.

JUNE 1997 – JULY 2005

FOUNTAIN INSTALL TECHNICIAN, COCA COLA BOTTLING

I started as a summer helper assisting Route Salesmen. Progressively worked my way to a Full-time Position by obtaining my Class A CDL and taking a position of Route Salesman. Was promoted in 1998 to Bulk Merchandiser which held for one year before moving to Bulk Delivery Driver which I stayed for two years before moving into the Fountain Installation Tech position for the Company. My goal while working for Coca Cola was to eventually become the Fountain Sales Manager or the Youth Market Manager.

EDUCATION

FEBRUARY 2019 - ONGOING

CERTIFICATE, GEORGIA TECH

Currently, I am attending the Georgia Tech Full Stack Web Developer Coding Bootcamp. In this program, I am learning how to work with HTML5, CSS3, Javascript, jQuery, C#, ASP.net, Bootstrap, React.js, Node.js, and MySQL. I am 10 weeks into this course and currently have an "A" average.

JUNE 1995
DIPLOMA, SAVANNAH HIGH SCHOOL

I graduated from Savannah High School where I was in the top 10% of my class. I played Soccer and Baseball and participated in band. At that time, Savannah High School was opening their Arts Academy. I applied and was accepted into the program for my musical ability. Over the years, I learned how to read bass and treble clef music and was able to learn how to play all brass instruments.

SKILLS

- Accounting including GL, FS, and BOM
